- o Text (English): Luis Fellipy Bett has always been an exceptional person. When I met him he was just a shy boy, but over the years he has shown a phenomenal evolution both in his professional attitude and in his character. He quickly becomes a fundamental part of our team and has always demonstrated dexterity, agility and commitment to everything that has been passed on to him. Therefore, he is a reference in what he does and always tries, in the best possible way, to identify solutions to everyday problems and bring greater agility to his accomplishments. On several occasions he was encouraged to do activities and tasks outside his normality and showed a very quick adaptability with it. His growth is clear and today I fully believe in his potential. I recommend your work and efforts to all who need it.
